IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Washington Co RWD #3 (New,#1) Did Not Meet Monitoring Requirements

Our water system violated drinking water requirements pertaining to the contaminant(s) of concern listed below. Although none of these violations are considered emergencies, as our customers, you have a right to know what happened and what we are doing, or have done, to correct these violations. Customers are not at risk and there is no reason to suspect any potential adverse health effects. Alternative water supplies are not needed.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the following monitoring periods, we did not monitor or test for the following contaminants, and therefore cannot be sure of the quality of your drinking water during that time:

Type of Sample(s)	Monitoring Period(s)
CHLORINE (T. COLIFORM)	5/1/2025 To 5/31/2025
TOTAL COLIFORM	5/1/2025 To 5/31/2025
CHLORINE (T. COLIFORM)	6/1/2025 To 6/30/2025
TOTAL COLIFORM	6/1/2025To 6/30/2025

What should I do? No Action Is Required or Needed.

What happened? What is being done? (2) Bacteriological samples of 30 were not sampled in May;
(1) Bacteriological sample of 30 was not sampled in June. All other samples were in compliance.

We anticipate resolving the problem by this date: Has already been addressed
